

Rowington Tithe Apportionment 1848

The following table lists each numbered parcel of land shown on the accompanying Tithe Map along with its owner, occupier and the type of land cultivation. The first column gives the corresponding field number(s) from the 1887 Ordnance Survey map. Where 1848 plots have been merged into a single, larger plot on the OS map then a suffix to the OS field number gives a guide as to which part of the OS field the original plot relates to. For example, the Barn and Yard numbered 971 on the Tithe Map is shown as OS field number 38se meaning that the Barn was at the South Eastern side of OS field 38.

Note: a partner document to this lists the plots in Tithe Map plot number sequence.
