

## Rowington Tithe Apportionment 1848

The following table lists each numbered parcel of land shown on the accompanying Tithe Map along with its owner, occupier and the type of land cultivation. The last column appends the corresponding field number(s) from the 1887 Ordnance Survey map. Where 1848 plots have been merged into a single, larger plot on the OS map then a suffix to the OS field number gives a guide as to which part of the OS field the original plot relates to. For example, the Garden numbered 5 on the Tithe Map is shown as OS field number 1011sw meaning that the garden was at the South Western side of field 1011.

Note: a partner document to this lists the plots in OS Field Number sequence.
