Important Notes

This graveyard index is based on the graveyard book that is kept in the Lady Chapel of St Laurence Church, Rowington and is reproduced with the kind permission of the Rector and Churchwardens.

The original book contains the churchyard map of the graveyard as it stood in 1980, plus a map of the memorials inside the church along with the surname index and to this has now been added the layout of the more recent graves from 1900 onwards. The drawings of the pre-1900 tombs and the transcriptions of the inscriptions, which together form the bulk of the graveyard book, have been scanned as images which are available on the Rowington Records website at

RowingtonRecords.com/Church/St Laurence Rowington/Churchyard map/index.html

These have now been transcribed and are included for the first time in this version of the index. Higher resolution images of the graveyard maps and scans of the burial registers from 1859 onwards are also available online.

This document probably best viewed online to take advantage of the zoom and search facilities of Acrobat Reader.

The index has now been updated to include the graves from the point in about 1920 when burials were made in ordered rows rather than following the previous practice of a rather more random arrangement. Some burials continued to be made in the old section of the graveyard after 1920 and the documentation for these is unfortunately missing. Where there is still a visible gravestone they have been included, but some will inevitably have been missed.

A surname index for entries in the burial registers from 1859 is also included, this includes entries for graves which are unmarked or no longer visible.

Graves in the old part of the graveyard are identified by a purely numerical reference (e.g. 180), the more recent graves are identified by the row and number (e.g. H23). Interior memorials are prefixed with "Mem" and inscriptions on the war memorial with "WM". Burials of ashes are identified with the prefix "CREM". Early burials of ashes are in a small plot at the North end of Row D. More recently they have been buried along the East wall of the church and a separate map of these is included.

I am grateful to the relatives of Elizabeth and John Pinfold; whose evident joy at locating the grave of their great, great grandparents by reference to the graveyard book inspired me to make it available online to anyone else with ancestors buried in Rowington Churchyard.

Introduction to original volume

The aim of this survey was to record the graves and memorial tablets in the Church of St Laurence, Rowington, up to the year 1900.

The survey was conducted by members of Rowington Women's Institute at the request of the Birmingham and Midland Society of Genealogy and Heraldry. Similar projects were concurrently conducted by 90 other Women's Institutes throughout Warwickshire, and 114 Churches were surveyed.

The field work at St Laurence and the subsequent compilation of this record was carried, out during the period July 1980 -April 1981. The participants have endeavoured to depict accurately the position and inscriptions of all the monuments they could find. Inevitably, the encroachments of nature and the ravages of time have concealed many graves or rendered parts of inscriptions illegible, and thus, the survey cannot be comprehensive.

This record gives details of graves and 24 monuments within Church. Their positions can be identified by reference to the maps accompanying each section.
